

To: PROGRAM DIRECTORS, AT40, SUBSCRIBING STATIONS

From: Tom Rounds

Re: 1974 WORLDWIDE LISTENING DIRECTORY

April 26, 1974

Here's your one and only chance to make sure we get the correct information about your station in the forthcoming "American Top 40 Worldwide Listening Directory, 1974 Edition".

Enclosed, the complete 18 page rough draft of the directory.

We know some of the information is wrong or incomplete, and we're counting on you to correct it and get the corrections back to us by May 15.

Please look up your listing and double check it for:

1. Correct call letters.
2. Correct city and state.
3. Correct frequency.
4. Correct scheduled day and time for AT40.

Make the corrections right on the appropriate sheet, and return that page (and only that page) to Watermark in the enclosed pre-addressed envelope.

It's also very possible that you aren't even listed. We've started shipping to over 40 new subscribers in the past month, and we know we've missed a bunch. If you're not there, please write in all the info on the right page and send it back to us.

If you have an FM and you're either simulcasting or programming AT40 separately on FM, be sure to write in all the information including the proper call letters, frequency and schedule. If it's simulcast write in "Simulcast". Also, if you're operating in stereo on FM, please write in "Stereo".

If you're repeating AT40 programs, please write in all that info, including call letters.

If you run out of space, send us a letter; same goes if you think we might mis-read your entry (we get easily confused).

We know you'll want all the straight stuff in the final, slick printed directory, so please make all the corrections and return them right away. We'll be printing about 100,000 copies this year.

Printer's deadline is May 15, 1974.
